TURNER HASTINGS

The Turner Hastings Difference

At Turner Hastings, we understand that the kitchen is the heart of the home. Every Turner Hastings product – from the smallest chrome fitting to the most elaborate fine fireclay sink is designed and manufactured to create unique, inviting and luxurious living spaces that stand the test of time.

Our exclusive range allows you to design a kitchen that is a true reflection of your appreciation for unparalleled quality and design.

Culture Of Customer Care

We are an Australian family owned and operated business since 1996. Our culture of customer care allows us to serve the Australian market the way they deserve – to the highest level.

European Made

Only the best, our fine fireclay sinks are manufactured in leading fireclay workshops and artisan studios throughout Europe. We hand select our collections featuring exquisite styles and designs to bring home to you.

Lifetime Warranty

For peace of mind, Turner Hastings offer a lifetime warranty on the fine fireclay sinks from date of purchase. Rest assured knowing the warranty covers any production and material defects.

Handcrafted Excellence

Turner Hastings fine fireclay sinks are handcrafted to handle the knocks, drops and messes that come with day-to-day life. They blend seamlessly with any kitchen or laundry style: heritage, contemporary or classic.

Sustainability

Turner Hastings is committed to our community – our employees, customers, our brand partners and the environment.

Sustainable Practices

We are committed to environmental awareness and responsibility to reduce our environmental impact. We have sustainable practices within our internal operations and across our supply chain minimising our environmental footprint. We recycle all of our packaging material by reusing or recycling in the appropriate way.

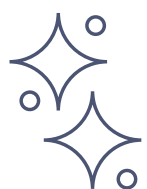

Protecting Our Environment

Our factories have an ISO 14001 Certification or are working towards this. They use any unfinished, unfired material or waste material from production processes to be repurposed into new products, resulting in zero waste, and protecting the environment.

Ethical Practices

We care for people. The majority of our factories are in developed democratic nations such as Turkey, Italy, Portugal, and England where these countries have anti-slavery laws

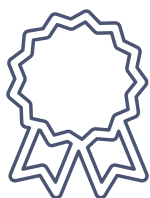

Reducing Chemical Use

To better serve our customers in their homes, our products are created in such a way that they result in easy-to-clean, bacteria resistant surfaces that do not require the use of harsh chemical cleaning products.

Fine Fireclay

Turner Hastings sinks are manufactured with fine fireclay, a 100% natural organic and recyclable material used by craftsman. Fired at very high temperatures that reach up to 1220°C, the clay is transformed into a durable, impact resistant, dense material.

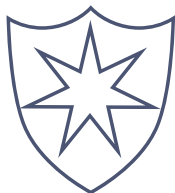

The special glaze coating that is fused with the fireclay body during firing gives fireclay sinks a non-porous, uniform surface which will not rust or stain over time, and is highly resistant to scratching.

**LIFETIME
WARRANTY**

HYGIENIC

Rest assured with Turner Hastings' industry leading guarantee!

If there is an unlikely breakage in transit we will replace the product free of charge within 365 days of your invoice date.

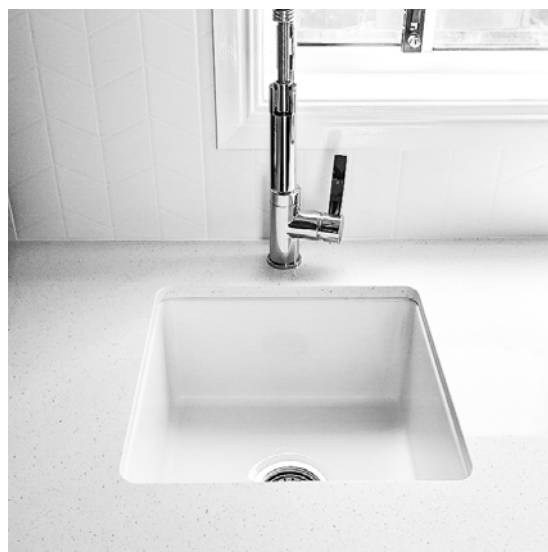

Terms and conditions apply. Please refer to our website for further details.

Our Sinks

More than any other kitchen fixture, your sink is the heart and soul of the kitchen environment. It's perhaps the most used object in your kitchen.

Novi Collection

The famous Novi collection, this is our most popular range for its versatility for any kitchen, butler's pantry or laundry with an intelligent reversible design. Choose between installing the flat side facing out for a more contemporary style kitchen or ribbed side facing out to suit a traditional style kitchen. Our 510mm butler sink is the narrowest butler sink in the whole range which is perfect for butlers pantries or laundries where space is at a premium.

Specifications: see page 73

CHESTER 80 X 50

Fine Fireclay Double Bowl Butler Sink With Tap Hole & Overflow

Product Code: 7403

Price: \$1,457

The taphole option allows you to fit the sink into narrower bench tops where there is no room for a tap behind the sink but love the look of a butler sink!

Fine Fireclay Double Bowl Butler Sink

Product Code: 7408

Price: \$1,457

(Without taphole and without overflow)

Without the taphole and overflow, you can now match your tapware to the basket waste and place your tap on the benchtop.

Material: Fine Fireclay

Inclusions: 90 x 50mm Basket Wastes Included

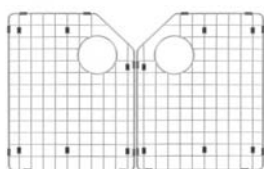

Mounting Options: Butler (front showing), Counter Top & Undermount (shelf required)

Clasico Single Mixer in Chrome | Novi 75 Butler Sink (Ribbed Side Facing Out)
Laundry Design by Hume Building

French Provincial Tapware Collection

Perfectly designed and manufactured in Italy, you can't go past Heritage French provincial style tapware with white handles to match our complete range of white Fine Fireclay sinks.

Rotate handles forward and down to operate, they do not rotate backwards so your splashback will not interfere with the operation. They feature a rotating spout for ease of use, and proudly carry a 15-year warranty. Basket wastes available in the accessories section to match the taps.

WELS 4 Star Water Rating (7.5L/min). Italian made mixer cartridge operation. Watermark approved to Australian Standards

Made in Italy

CARE INFORMATION

Fine Fireclay Sinks

- **Caution:**

Avoid using plastic washing-up bowls, as particles of grit can become impregnated in the base of the bowl and act like sand paper causing permanent scratching to the glazed surface.

- **Bleach & Acids:**

The fine fireclay surface will not be affected by bleach or acids found in the kitchen, however, it is advisable to use only diluted bleach in or on the sink, this is because the chrome wastes and taps can be damaged by extended exposure to neat bleach.

- **Routine Cleaning:**

As the glazed surface is extremely smooth and non-porous, cleaning with soapy water is usually all that is required to keep your sink clean. More stubborn stains can be removed using GfL or similar cleaning products. Wipe down with a dry cloth after use, this will help to avoid any lime scale build-up.

- **Stains:**

If stains become particularly difficult to remove, an overnight soak using biological washing powder should help remove any marks.

- **Lime-Scale:**

In hard water areas limescale can build-up on the surface and become visible when stained by food and drink. We recommend regular cleaning with a solution of 3-parts hot water and 1-part white vinegar or specific limescale cleaners can be used for example Viakal.

- **Metal Marks:**

Pans and cutlery can leave grey metal marks on the surface as the glazed finish is much harder than the metal utensils used in the kitchen. These marks can be easily removed using a powder compound called Bar Keeper's Friend. This product can be purchased from most large supermarkets or hardware stores. To prevent metal marks, a rubber sink mat or stainless steel grid can be purchased from Turner Hastings to sit in the base whilst washing metal items

Tapware & Sink Accessories

- Use a mild household detergent or warm soapy water and clean with a soft cloth. It is important that no abrasive cleaners are used, as these will remove the surface gloss of the product.
