## What Makes Our Furniture Special?

### **Tongue And Groove Jointing**

All the solid backs and bases are assembled with a tongue and groove joint with multiple cam fix points. This creates exceptional strength and durability, particularly for wall mounted cabinets. The tongue and groove joint prevents the side from pulling away from the back when pressure is placed on the vanity top.

### **Soft-Close Hinges**

Only the best European fully adjustable hinges are used. This allows them to be easily adjusted and offer a long life span. All hinges include built in soft-close mechanisms.

### **Moisture Resistant Board**

All our cabinets are manufactured with Moisture Resistant (MR) Board. This gives you the best protection against swelling and other moisture damage. All our board is sourced from responsible, certified suppliers, and is either "E0" or "E1" low formaldehyde eco-friendly product.

### **Solid Vanity Back**

At Timberline we always use a full 16mm solid back. This ensures the greatest stability for our vanities and makes mounting and installing a breeze. We never use a 3mm paper lined MDF back.

### **Construction Brackets**

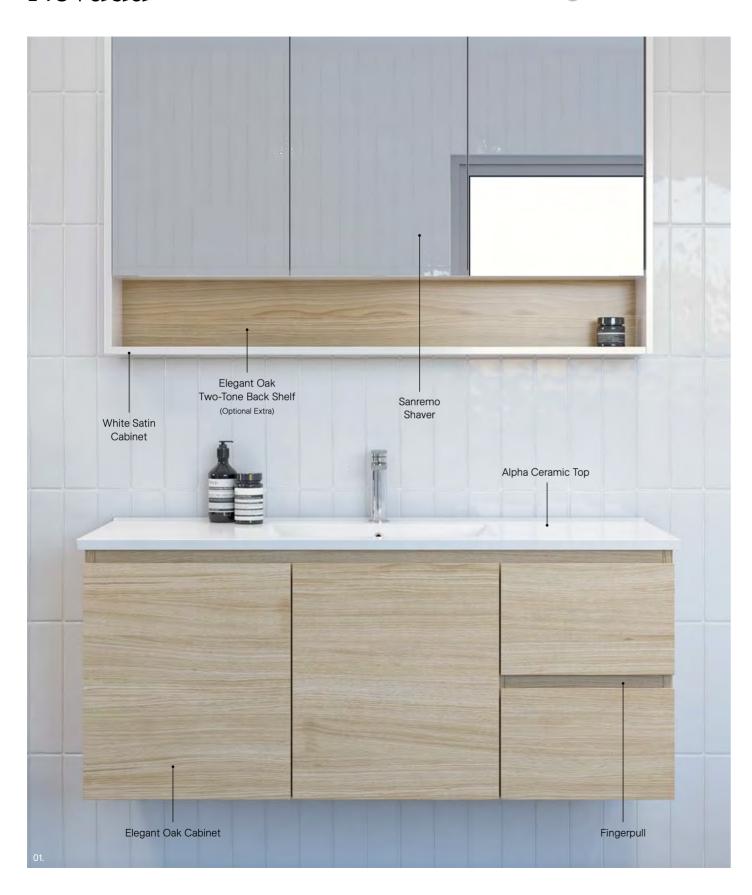

Specially designed internal brackets make a neat and strong

### **Durable Edging**

The edging on our woodgrain cabinets is a strong ABS with matching grain. This means you will get years of durable service from your new woodgrain cabinet.

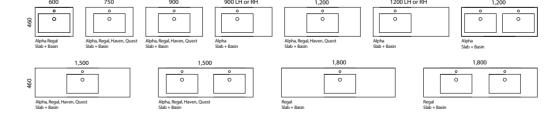

The Nevada is a classic all-rounder, providing the practicality of door and drawer storage whilst leaving you many options for cabinet finishes, handles and tops.

### THE ULTIMATE STRENGTH TEST

Having a great looking vanity is one thing. Having a vanity strong enough for your whole family is another!

We tested the strength of a 1500mm wall hung vanity installed using the bare minimum number of fixings to meet our installation instructions. Then we loaded it with 37 bags of cement totalling 740kg. With our solid rear panel which is tongue and grooved into the cabinet the vanity supported this full weight. With Timberline, you can be assured you aren't just getting a pretty face! Our vanities are tough!

Caesarstone may be substituted for equivalent colours if required. Caesarstone is made from natural quartz and therefore some variation on colour and aggregate may occur. While the colours in this brochure are to the highest standard in printing, it should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone or kitchen retail showroom to appreciate the movement of the design over a large surface.

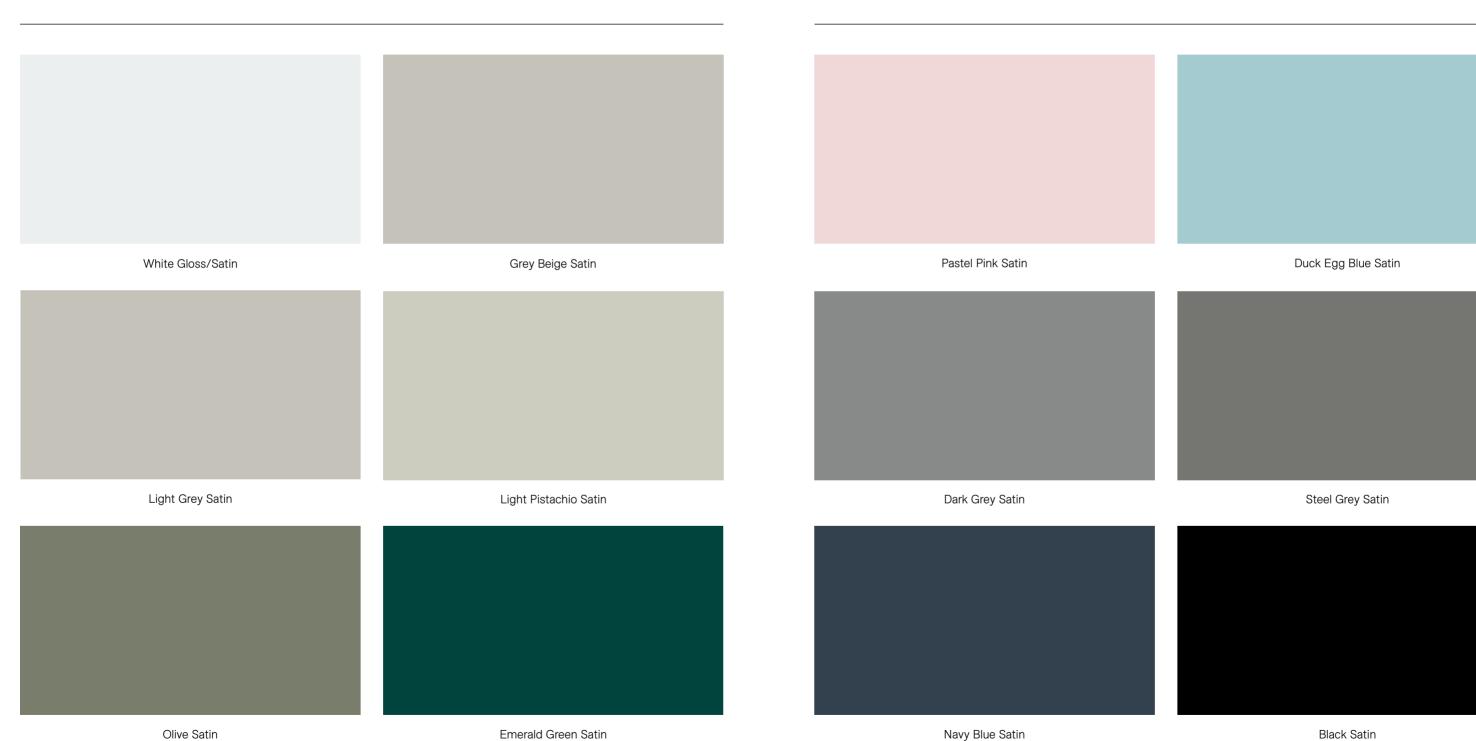

**NOTE:** While the colours above are our core range, we can access any of the Caesarstone 'Classico' 20mm range for the same price, with the exception of the 'Super Natural ULTRA' colours.

## **Standard Paint Colours**

If you're after a sleek, clean look or just wanting to bring colour into your bathroom, then a painted finish is the perfect choice. All painted colours are finished with our durable 2 pack polyurethane hardening process, which makes them easy to clean and hard-wearing.

**NOTE:** Shaker routed vanities including Nevada Classic and Nevada Plus Classic ranges are only available in painted finishes. Satin finish standard unless specified for pastel colours. **Note for Special Colours:** Gloss finishes look distinctly different to sample matt finishes. Painted colours can vary slightly between batches.

## Standard Woodgrain Colours

Woodgrain finishes capture the colour and texture of natural timbers such as oak, maple and walnut. They add warmth and colour to your bathroom while being ultra durable, easy to clean and affordable. Choose any of these colours - at no extra cost!
