WHY CHOOSE ADP TAPWARE

Soul Wall Spout & Wall Top Assembly, Matte White

As a family owned Australian business, we’ve come a long way since our humble beginnings in 2001. ADP is proud to be in the homes of many Australians, creating functional and timeless bathrooms and laundries.

ADP tapware products are Watermark Certified, WELS registered, and comply with all relevant Australian plumbing standards.

Quality you can trust. ADP Tapware cartridges come with a 15 year warranty, so that you can use your tap with confidence. For a full list of warranties, see page 57.

After many years of designing bathroom furniture, we’ve used this knowledge and experience to build a tapware collection that pairs perfectly with vanities and basins.

Have questions? Our friendly customer service team are here to help. We have ADP Sales Representatives across the country, meaning that support is only ever a phone call away.

Tapware Finishes

ADP's Tapware collection encompasses a wide range of colours and finishes, allowing you to create endless styles in the bathroom and follow through to the kitchen and laundry.

Chrome (Chromium Plating)

A classic finish that will fit any style of bathroom, adding a subtle elegance that will instantly multiply your design options.

Chrome plating, also know as chromium plating, is a technique of electroplating a thin layer of chromium onto a metal to improve resistance to corrosion, protect against scratches and tarnish, and enhance its appearance.

Matte Black (Electroplating)

A signature finish that exudes luxury and refinement. Matte Black is a great choice for many styles from contemporary modern to industrial chic.

Electroplating involves passing an electric current through a solution called an electrolyte, which splits up depositing some of the metal atoms into a thin layer on the metal creating a durable bonded finish.

Matte White (Powder Coated)

Soft and fresh, Matte White tapware is a great choice in many spaces. Best paired with natural materials and suited to coastal, boho and minimalist designs.

Powder coating is a type of coating that is applied as a free-flowing, dry powder applied electrostatically then cured, unlike conventional liquid paint. It creates a hard finish that is tougher than conventional paint.

PVD

Physical Vapour Deposition (PVD) is a technique used to coat tapware and accessories. A metal coating bonds to the surface at an atomic level, resulting in a long lasting and consistant surface finish. PVD is free from any hazardous materials and does not generate any chemical waste or water pollution, making it one of the most enevironmentally friendly finishes. PVD finishes are strong, hard-wearing and durable, making it a great choice suitable for all indoor applications.

Brushed Nickel (PVD)

Arguably a finish that is suited to the vast majority of interior settings and palettes, Brushed Nickel is striking yet understated. Combine with almost any colour palette but take the space to the next level when paired with an earthy palette mixed with oaks and natural stones.

Brushed Brass (PVD)

Choosing a Brushed Brass finish instantly adds a wealth of luxury, warmth and vibrance to the space. Match with sage greens, deep blue hues for maximum impact or pair with natural finishes and soft whites for a touch of elegance.

Brushed Gunmetal (PVD)

The Brushed Gunmetal finish brings an unexpected edge to your bathroom design. Moody and refined, Gunmetal will pair well with a darker colour palette and textured tiles.

Brushed Copper (PVD)

The depth and warmth of the Brushed Copper finish is an impeccable choice, creating contrast and lavish style. Pairs beautifully with dark and light greens, natural stone textures and pale timbers.

Eternal

Finishes Available

- Chrome
- Brushed Brass
- Brushed Copper
- Brushed Nickel
- Matte Black

*A note on colour in the Eternal range:
Brushed Brass is a deep brass and Brushed Nickel is a cool nickel.*

Indi Round Kitchen Mixer

Care & Maintenance

Please do

Wipe, Rinse, Dry

Keep it simple for everyday cleaning.
Wipe gently with a warm soapy damp cloth or sponge, using a mild detergent.
Rinse off with clean water.
Dry with a soft towel or microfiber cloth for an impeccable finish!

For best results

For a deeper clean, be sure to regularly clean and remove limescale (that yucky white stuff that sometimes builds up).
Apply a small amount of non-abrasive polish to a soft cloth and wipe to remove build up. Finish by completely wiping off the polish with a soft and clean, lint-free cloth.
We find a solution of 50:50 white vinegar and water also works wonders! Simply wipe with a soft cloth, rinse immediately and towel dry.

Please don't

Avoid, Caution, Just Don't

Do not use any chemical cleaners. They contain nasty ingredients that can react and corrode the materials of the product.
Do not use 'Organic' or 'Natural' cleaning products as they often contain high concentrates of citric or lactic acid and limonene which may be harmful to the materials of the product.
Do not use abrasive cleaners, this can be damaging to the surface of your product.
Do not use abrasive cloths, scrubbing brush or scourer to clean, this can scratch the surface of your products.

Some more important stuff

Here is a list of ingredients to definitely avoid using:
Hydrochloric acid, formic acid, phosphorous acid, ammonium hydroxide, ethanol, benzene based ingredients or lactic acids and limonene (often found in natural cleaning products).
Residues of toiletries such as liquid soaps, shampoos and shower gels, hair dyes, perfumes, aftershave and nail varnish can also cause damage. Carefully rinse with water after use to remove residues. Likewise, do not store any cleaning agents or chemicals under the products, for example in a vanity unit, as the vapors may damage the products.

Product Information

Pressure Rating	Maximum: 73 psi/500 kpa (AS3500 pressure must be limited to 500 kpa and tapware fitted with flow restrictors limited to 500 kpa) Recommended: 350-500 kpa
Temperature Rating	Maximum: 70°C Minimum: 1°C
Warranty	Cartridge - 15 years Body - 7 year warranty against manufacturing faults and flaking. Parts and labour - 2 years Commercial use - 1 year Accessories - 7 years
Pex	All ADP basin and sink mixers include hot and cold PEX core (Cross-Linked Polyethylene) stainless steel hoses. PEX hoses are superior quality, increasing durability as well as flexibility. PEX hoses will not break down or contaminate your drinking water and are resistant to chemicals such as chlorine.
Durable Finishes	Available in a range of durable finishes with increased resistance to scratch marks, abrasions and heat. Please refer to www.adpaustralia.com.au for care and maintenance instructions.
DZR Brass	All ADP tapware is made from certified dezincification resistant (DZR) brass consistent with the industry standards for applications with high water temperatures or chlorides present.
