## TECHNOLOGY

## At Remer, we believe that your daily routine should be both functional and beautiful.

That's why our illuminated mirrors and shaving cabinets are a perfect blend of lighting
modern technology, and sleek design.

With features like demisters, magnifiers and Bluetooth speakers, our products are both isually appealing and incredibly convenient. With just a simple touch, you can activat
these functions and make your daily life a little more comfortable and hassle-free

## DEMISTER

One of the more luxurious features of Remer mirrors, the Demister feature, is the perfec solution to a steamy bathroom that often compromises the quality of your mirror. With a ouch of a button before your shower, you can bask in the heat of your bathroom while still having a clean, clear mirror for your morning routine. Every detail has been considered in the making of Remer products, the Demister feature ensures a fog-free mirror with a 1 -hour auto cut-off available on select models - see individual model for details.
blUETOOTH SPEAKERS
Experience the power of music as you connect your phone seamlessly to the in-built speakers and immerse yourself in your favourite playlist. Using Remer's Bluetooth technology, you can elevate your bathroom into a personalised oasis that reflects your individual style and taste. Discover the ultimate convenience taste. Discover the ultimate convenie with Remer's Bluetooth mirrors.

INFRARED SENSOR
Activate lighting and control colour temperature effortlessly with Remer's touchless infrared sensor technology. Available on select styles only.

## DIMMABLE

Dimmable technology allows you to adjust the lighting level to your preference. Start your day nergised with full brightness, then relax and nwind in the evening with a more subdued mbiance or choose anything in between. Available on select styles only.
MAGNIFIER
Upgrade your grooming and makeup routine with a built-in or stand alone magnifying with a built-in or stand alone magnitying
mirror. A ring of light surrounding the mir mirror. A ring of light surrounding the mirro perfect lighting for flawless results every time.

TOUCH SENSOR
Experience the ease of control with Remer's touch sensor technology. Simply touch to control and adjust your mirror and lighting without any complicated controls.

## ALUMINIUM FRAMES

Elevate your mirror game with Remer's custom-made aluminium frames. Our frames come in a variety of elegant colours, perfectly complementing your home decor, fixtures, and furniture. Choose from our wide range of mirror styles and create the mirror of your dreams with Remer.

PACKAGING
At Remer, we believe that the packaging of our products should be just as At Remorive as the products themselves. We ouse quality honeycomb board nnovative as the products themselves. We use quality honeycomb board to provide compression, strength, and rigidity, effectively protecting the packaging design not only ensures that your product arrives intact, but also reduces our carbon footprint. Trust us to deliver your Remer product in safe and sustainable packaging

Introducing our new and exciting bespoke collections, which are
completely customisable to your requirements. Within these four Series, you'l see that each has a basic design or shape. However, within that
design, you'll have the ability to customise several features of the mirro to make it uniquely yours.

To customise your mirror, simply select the options that best fit your needs and preferences from our list of available options. Choose your desired shape and size, whether you prefer a framed or frameless design. Explore various coloured frames, captivating lighting colours, and take advantage of our selection of add-on features, such as Bluetooth connectivity, or Demister technology. Once you've made your selections, we'll assemble your customised mirror locally in Melbourne, just for you
